

Pet Facts Generator

I wanted to make my project about learning about pets. Therefore, I made a Pet Facts Generator. This includes both Cats and Dogs which are the two of the most common household pets. When you click the generate facts button for either dogs or cats you get a new fact every time. I added a form submission at the end to ask whether you have a pet. I made my website look simple and sweet with shades of blue and grey with black text.

Pet Facts Generator

Do you have a pet? Well, it doesn't matter; learn about cats and dogs now by generating facts
